COMPANY INFORMATION

Since 1973, INTERSTATE TIRES is manufacturing tires for Passenger, Light Truck and Commercial vehicles.

INTERSTATE expanded rapidly and has developed its own unique product range. The company's successful execution of its unique marketing strategy has produced units sales growth that has consistently outpaced that of the replacement tire industry.

With European technology and Asian (Taiwan, Thailand & China) production, INTERSTATE stands for high quality and consistent supply.

INTERSTATE has been co-operating with world leaders in the development of advanced technology in the design and production of tires.

In April 2018, INTERSTATE BRAND was purchased by TBC Corporation.

TBC Corporation is one of the United States' largest marketers of tires for the automotive replacement market. TBC retail operations include Company-operated tire and automotive service centers under the "Tire Kingdom" and "National Tire & Battery" brands, and franchised stores under the "MIDAS" and "Big O Tires" brands. TBC markets on a wholesale basis to regional tire chains and tire distributors across the United States, Canada, and Mexico. TBC International is the large-volume wholesale sales division serving countries outside North America.

- Unique street legal racing tyre, perfect for track days.
- IST Compound Tread: this intermediate tread pattern provides the best combination of grip and endurance for competitive handling and performance during wet and dry conditions.
- Semi Slick Shoulder: the unique shoulder design enhances the steering response and provides maximum grip during cornering.
- V-shaped Tread Design: unidirectional V-shaped tread design with a continuous center tread to provide the best mix of rubber on the track and drainage efficiency during wet conditions.
- Stiff Bead Construction; The Stiff Interstate Competition (SIC) bead construction helps to prevent sidewall distortion during greater lateral and acceleration forces.
- Comes with EU tyre label
- Available in 80-compound and 120-compound
